With over 15 years online, Bodog is a well known land based Sportsbook in United States. Bodog online, a trademark of an English company called Entertainment Group, was launched in 1994. BoDog have become since in one of the strongest, if not the stronger, online adult entertaining brands.

Bodog Casino, Poker and Sportsbook is managed all by a single account. You deposit using Neteller or Credit Cards. They award you with 10% free cash and you can place wagers on any casino games, poker table or sports.

Bodog Sportsbook

Awarded best online sportsbook in 2006 is a leading online sports betting platform. Supports LIVE odds. Lots of fresh data and reports.

Bodog Sports is safe and secure and the sports bettor will have no worries.

Bodog has long been possibly the biggest name in online sportsbooks, with a loyal customer base that continues to grow due to aggressive marketing and a high quality experience. Since a rough patch in 2008 that nearly led to bankruptcy in 2008, Bodog has become an even bigger name in sports betting. Here's what you can expect when you visit Bodog's sportsbook for the first time.

Bodog Bonuses

New members receive an **Unlimited 10% match to any deposit** - [Click here!](#)

Bodog offers a good variety of bonuses compared to other online sportsbooks. Most of their bonuses are seasonal and are promoted during specific times. For example, a popular NFL promotion allows players to receive a bonus (for example, \$250) if they bet on every week of the NFL season, win or lose. You can also often get a 10% instant deposit bonus to help you get started.

Also, there is a referral bonus that allows you to get a 20% bonus (up to \$100) if you refer a friend that opens an account and makes a deposit. Other bonuses, such as a free \$21 NFL bet, are offered in conjunction with the other parts of Bodog (for instance, in this example, once you hit blackjack three times while playing in the casino, you get the free \$21 bet in the sportsbook area).

Sports Betting at Bodog

In order to compete with the many sportsbooks you can find online, a site has to offer a wide variety of betting options. Bodog does just that with all of the major sports you would expect (football, basketball, baseball, hockey, mixed martial arts, soccer, golf, and so forth) and even a few you wouldn't (snooker, darts, wrestling, poker). There are also live in-play bets that will help you to enjoy the games once they have begun and perhaps make a little money, as well.

Bodog allows you more than just sports betting, in-play and prop bets, however. You can also bet on political races, business topics, entertainment and even some fun "weird wagers" that are offered from time to time. Overall, Bodog offers a great variety of potential ways to wager through their sportsbook.

Ease of Use

While Bodog has a little more flashiness to it than some other sportsbooks, it thankfully does not come at the cost of user friendliness. It is still very easy to find what you want. For new players, bonuses and offers are displayed prominently, while regulars can quickly find featured betting lines or use the list of sports on the left side of their browser window to quickly find what they are looking for.

Further enhancing the ease of use of Bodog's sportsbook is the option to place bets from your smartphone. If you have an iPhone or an Android phone, you can place bets through Bodog at any time. Best of all, you do not have to download an application in order to do so, as you can place bets right through Bodog's specially-designed mobile site. One last thing to note is that you only need one account to partake in Bodog's sportsbook, casino, poker room or horse racing section.

Bodog offers the most popular payment methods for banking that you will find in most other sportsbooks, as well. They accept credit/debit cards for deposits, such as Visa, MasterCard and so forth. They also accept e-wallet payments, which are very popular among most players. For withdrawals, the preferred method is a courier check, and players can collect one free payout per month. Bodog had to regain customer trust after long payout delays a few years ago, but have done so by having among the quickest payouts in the industry today.

They have done a great job with this website they have all the package(poker,casino games and sportbookie) using a cool graphic and lots of paying methods from Neteller to Mastercard.Only one thing bothers me:they don't have a live chat support and you have to wait for e-mails to solve your problems.

I'm happy to play poker against Americans,because they are the greatest players of texas hold'em.That's why I love this site because it offers me the chance to go against the best and see how good I am at this game.Another thing I like is the "10% Cash Signup Bonus! Simple. No wagering requirements and No maximum deposits."I hate those website who give bonuses after you play thousand of hands.

BoDog Sportsbook has all the Gambling Online Magazine Readers Poll Awards.

Their casino and poker room are fine.

The great thing about BoDog.com is that you have one single account and the options to play a bid of poker and to bet on NBA playoffs.
