Da Vinci's Gold Casino launched at a very opportune moment. With the Da Vinci Code book being such a big seller and the movie being released, the play on The Da Vinci Code is not to be overseen.

DaVinci Online Casino is powered by Rival Gaming, a young casino software that became very popular after the UIGEA approval. Welcome US Players and supports Multi-Currency deposits. DaVinci Gold is constantly offering new promotions like match deposits, challenges and cash-back to their existing players.

Da Vinci's Gold Casino's launch was at the right timing. The book was such a big seller and the movie was released, the play on The Da Vinci Code cannot be overlooked. There is a good reason for this, because of their slots games - I-Slots - where you can reach the next level and unravel the story. Every level will bring a new scene and a new target, which is surely one of the most fun slots games that I have come across in recent times.

Until now, this group has really impressed the industry with their professionalism. They take suggestions serious and when possible, have already implemented some of them or have them planned for the next update. The software is great already.

They offer all the games that casinos have to offer including the interactive slots which makes this place a load of fun.

I love this casino software specially the "i-slots" game. If you gamble for fun, like me, ... this is a must. You must try da vinci gold islots.

I love Rival casinos. I think the games load a lot faster than microgaming. I think the interactive slots are a great idea. I could playing them for a while and not get bored. The only thing, I didn't see multi-player games or tournaments. I found Davinci support young but very professional.

Yes, I recommend Davinci Casino.

Hello, I recommend Rival online casinos ... any news if Rival casinos are planning to add progressive slots on the near future?

When this site eventually got going it was very enjoyable, the problem was it seemed to take for ever to actually DO anything, and did not display any message to actually TELL you what it was doing or thinking about doing. You were just left sitting there wondering if it was going to do anything.

Apart from that small gripe I found the site to be extremely enjoyable, and once it actually got to the play page, everything worked fine. Note to the wise folks speed up your program.

I found this casino to be very unprofessional. I had requested the 1000% promotion I found in the cashier promotions and deposited 25\$. After doing so I it took 2 days to go through and I never received my promotion. The online chat and support group took hours and offered me a 500% promotion in the end and acted like nothing was wrong. Horrible casino and would not recommend it.
