Rome Casino Casino Software

The Casino is powered by the revolutionary gaming software TopGame. The new casino software not only has excellent graphics but also has new functional features. It allows customers to play multiple games at the same time using unique tabbing software. The games also have an auto spin feature. This will undoubtedly provide a different gaming experience.

TopGame software uses On demand game loading which allows for blazing fast download times and gets players to the action faster than ever. This feature makes RomeCasino.com a fast loading next generation platform.

RomeCasino Games

RomeCasino.com offer a diverse range of 80+ casino games. Ranging from Blackjack, Classic Slots, Roulette, Video Poker, Keno, Craps and Slots. And five progressive jackpot games, Stars and Stripes Jackpot, Bingo Jackpot, Fruit Jackpot, Monster Madness Jackpot and Wild Sevens. The games utilizes state of the art technology. I like the variety of games that are offered.

Multihand Blackjack plays just like regular Blackjack except that the player is essentially sitting at every seat at the table. This means that once one hand is played the player can quickly move on to another hand – no waiting for other players to play before the next hand is dealt.

Rome Casino VIP Players

VIP Club membership will offer you VIP treatment in where the loyalty points add up for every dollar wagered and can then be cashed in casino credit. Also, withdrawal time reduces to 24hours for VIP players.

They require you to wager 12X the deposit amount before a withdrawal!! Bkackjack and roulette do not count in the wagering amount.

I enjoyed the variety of games offered. Great looking graphics, and sound. Each game downloads fast, so there is no waiting. Also I like having a live chat right in the lobby area, and while I am playing games. overall not a bad casino
