If you want to play in an online poker website where your poker skills are tested in every hand you play, try ultimate bet. The fact that this is the home of a poker legend like PHIL HELMUTH should make a lot of players join this website also because it has lots of fantastic promotions.

By far the worst site. Don't even play blackjack cause it's rigged. Did a through analysis and if you saw the results you'd be shocked. Nothing on this site can be legitimate even the poker. I'm surprised people let these bastards get away with this. What a shame...
