iNetBet online casino open its door six years ago in Costa Rica by an English company called Internet Gaming Services. In seven years iNetCasino has hosted 200,000 players and paid over half a billion in winnings. They have a very simple site and don't seem to market themselves heavily.

There's something about iNetBet

iNetBet was the first RTG powered casino to be approved by the OPA (Online Players Association).

iNetBet.com is a very professional and well managed RTG casino. They have good sign up offers and comp programs as well as a variety of deposit options available to USA players.
